### Message From Brother Chris Patiño, Board Chair:

This September, Pope Leo XIV reflected, “We need an extensive ‘covenant of humanity,’ founded not on power but on care; not on profit but on gift; not on suspicion but on trust. Care, gift and trust are not virtues to be practiced only in one’s spare time: They are pillars of an economy that does not kill, but deepens and broadens participation in life.”

It is this sense of solidarity that is essential to the La Salle International Foundation’s mission. The efforts made to support global projects go beyond the financial support given. Each contribution is an act of solidarity that allows young people, especially those on the peripheries, to “deepen and broaden participation in life.”

As we share this year’s annual report, we thank all those whose contributions make

the work of LSIF possible. We look forward to continuing to strengthen our efforts in support of the global network of the De La Salle Brothers, particularly, those projects dedicated to those in vulnerable situations.

With your support, together we are contributing to a worldwide mission dedicated to touching hearts, teaching minds and transforming lives. Thank you!
